

# CESA Fall 2020 COVID Complex Protocol

CESA is committed to taking the necessary precautions to make our complex as safe as possible for our players, coaches, and parents. Please read this information closely and let's all work together to keep everyone safe. CESA has taken into account the guidelines set forth by the CDC, SCDHEC, and SCYSA in order to make decisions we feel are *feasible* for our environment. Please understand that even with these precautions in place there is still an inherent risk associated with participation.

**The South Carolina Youth Soccer Association issued a mask requirement for all activities on July 14<sup>th</sup> 2020, which applies to all coaches, parents, and spectators at our sanctioned events, games, scrimmages, and practices.**

- Coaches are asked to help players avoid huddles, handshakes, and high fives.
- Parents are asked to wait in their vehicles until 15 minutes before kick off and then proceed to the sidelines to avoid large crowds forming between games.
- Parents do not let your children wander around the complex unsupervised during games or practices.
- Players are asked to bring their own water and water bottle.
- Players are asked to wear a mask or face covering when seeing our Athletic Training Staff for pre-game and post-game needs.
- CESA will mark **RED DASHED LINES** on the parent sideline which parents must sit behind to help us promote social distancing and avoid large gatherings before, during, and after matches. We ask that parents bring their own chairs for sitting.
- Referees are not responsible to enforce these requirements. However, the referee crew may choose to abandon the match if non-compliance persists after notice to the spectators.
- NO Tents allowed. NO team benches allowed. NO pets allowed.
- All CESA complexes are tobacco and alcohol free.

## Sample of Signage to be Displayed Throughout the Complex
